
Paraguay

**Total area:**

406,752 km²

Population:

6,783,272 (2015)

Literacy:

90%

Official languages:

Spanish, Guarani

GDP (PPP) per capita:

\$9,779 (2017 est.)

Life expectancy:

72 years

Religions:

90% Catholic, 7% Protestant, 1% Agnostic or Atheist, 2% other religions

Prayer points

Protection for children

Viva's partner network in Paraguay is continuing to protect children from harm and abuse in spite of the challenges brought by rising Covid cases and social restrictions in recent months. Pray for the network of more than 300 churches and organisations as it provides training about positive discipline, the prevention of abuse and violence against children, and early pregnancy. Pray too as the network is actively working to change laws and policies. Through its advocacy efforts and relationships built, it is involved in influencing two regional and two national government policies to strengthen the protection system. (Viva - August 2021)

Reaching indigenous groups

People belonging to most of the indigenous groups in Paraguay live and die with almost no access to God's good news. SIM is partnering with other mission agencies to record scriptures in the heart language of these communities. Pray for these workers and for the ministry teams being sent to disciple and train believers. (Serving In Mission - May 2020)

Recorded scriptures in heart languages

Pray for the unreached indigenous people of Paraguay. People belonging to most of the 19 distinct indigenous groups in Paraguay live and die with almost no access to God's good news. Serving in Mission (SIM) Paraguay is addressing this by partnering with other missions to record scriptures and Bible materials in the heart languages of these communities. Pray that by sending ministry teams to disciple and train believers from indigenous communities, these indigenous believers will ultimately convey the gospel to other groups. (Serving In Mission - April 2020)

Child protection programmes

The Viva network is implementing a city-wide child protection programme which is already seeing 3,000 children empowered in self-protection strategies, 15 child protection committees actively at work and one new agreement with the City Council to support the programme. Pray that it will continue to strengthen and grow to reach more children into the future. (Viva - December 2019)

Pray for the Unreached Indigenous people of Paraguay

People belonging to most of the 19 distinct indigenous groups in Paraguay live and die with almost no access to God's good news. SIM Paraguay is addressing this by partnering with other missions to record scriptures and Bible materials in the heart languages of these communities. By sending ministry teams to disciple and train believers from indigenous communities, we pray that as leaders, these indigenous believers will, in turn, effectively convey the gospel to other groups. (Serving In Mission - October 2019)

Vulnerable Children in Paraguay

A variety of social issues, rooted in poverty, force many parents in Paraguay to abandon their children. It can take years for children to be matched to appropriate foster carers – but there are not enough available, trained families in the system to receive these children. Institutional care therefore becomes the default choice. Change is coming though. Viva's partner network in Paraguay is part of a wider Christian movement that is raising awareness amongst churches of the need for more foster carers. A foster care programme in the city of Ñemby will begin next year. Please pray that many more foster carers will come forward to meet the complex needs of vulnerable children in Paraguay, and that momentum around this area will grow in the coming years. (Viva - November 2017)

Enxet Bible

Give thanks that the stage of 'cleaning up' the translated text of the Enxet Bible is now complete. This has been a fantastic project to work on in which the translators have experienced God's blessing, his provision and faithfulness over the years. There has been a tremendous amount of effort which has gone into this project since it began in 2003: the building of the translation office in Rio Verde in 2002 and the training of translators Asunción Rojas, Martín Rojas and Juan Martínez in Peru between 2005 and 2007. Pray for all the necessary arrangements and funding for publication, in partnership with The Paraguayan Bible Society. (Church Mission Society - July 2015)

Political instability

Paraguay lived under more than three decades of dictatorship until 1989 and has long been one of the Latin America's poorest and most isolated countries. Despite rapid economic growth in recent years, the country still suffers political instability. GBUP, the Christian student movement, has seen an awakening of Christian students. Student workers have been visiting cities in the interior of the country where there are universities but where Christian students are unaware of the ministry of GBUP. Many are being challenged to be agents of reconciliation in their context. Pray for continued growth and for passion and commitment for all involved in student ministry. (IFES - May 2015)

Alcohol abuse

Please pray for Chaco indigenous communities where alcohol addiction and abuse can be common, in spite a national law stating that it is illegal to sell alcohol to indigenous people. Sadly, suicide rates are also relatively high amongst young people in these communities. Please pray especially for Francisca Sosa whose teenage son committed suicide just before Christmas and for Nelson and Carmen Franco whose 15 year old daughter also took her life at the beginning of January. (Church Mission Society - March 2013)

Audible Bible in Guarani

One thousand copies of *The Audible Bible in Guarani* are to be given to people living in villages in the La Patria settlement. This will complement the Bible studies already taking place and should be an

enormously valuable resource as these people mainly speak Guarani and many have low literacy levels. Other communities who are Enxet (Lengua) speaking are also showing interest and there are plans to give them a 'reading the Bible in a year programme', so that they can read/listen to it all and not just their favourite passages. Pray that God will speak powerfully through His word and pray for the ongoing development of Bible study materials in new languages and formats. (Church Mission Society - March 2013)

Rural pastors

Please pray for rural pastors working across the vast rural area of the Paraguayan Chaco and give thanks for a recent conference where over 300 pastors were able to meet together and spend time learning from each other. Please pray especially for leadership training across large distances with little good transport or infrastructure available. Finally, please pray for translation projects which are enabling more and more of the bible to be available in these pastors' own mother tongues. (Church Mission Society - January 2013)
