

Integral Mission Forum

Topic: Getting to grips with Community Transformation

Date: Tuesday 11th March 2014

Speaker: Andy Matheson

Discussion Questions:

1. What experiences can you share of how individualistic theology and spiritually prevent people engaging in community transformation?
2. If we, as the church, understood our communal nature how might that make a difference in our mission in the world?
3. When we read the Scriptures with communal lenses what difference does that make to our understanding of life and faith?
4. What core foundations on which effective community transformation work is done, are rooted in our Biblical worldview?
