### CD-Rom

***The World of Islam, (2000) Global Mapping International***

A three-year cooperative project produced a CD-ROM of some of the best in educational resources about Islam and Christian witness to Islam. This CD-Rom is a high-quality research and training

resource for Christians seriously interested in ministering in the Muslim context. It will especially benefit field workers, professors, students, and local churches.

The centerpiece of "The World of Islam" is a new 850-page "Survey of Islam" by the Institute for the Study of Islam and Christianity. Also included are major seminary courses on Islam from Dr. Dudley Woodberry of Fuller Seminary School of World Mission, as well as the full text of some 50 of the best books on Islam; an annotated bibliography; collections of maps and photographs; and links to Web sites related to Islam.

Christianity Today included the CD-ROM in its list of "The Best Resources on Islam" (Jan 7, 2002 issue), saying, "This is an amazingly comprehensive collection of resources on Islam." Evangelical Missions Quarterly called it "a 'must own' collection for any one who works with Muslims."

The CD is published by Global Mapping International in partnership with:

- o Institute for the Study of Islam and Christianity
- o Fuller Seminary School of World Mission
- o Lausanne Committee for World Evangelization
