Discovering Jesus through Asian Eyes

- *an eight week discussion course* written by Clive Thorne and others

*Published by the Good Book Company

This material, developed through the South Asian Forum, includes input and backing from numerous Christian organisations. It presents questions which South Asians are quite likely to ask about the Christian faith and some of the sensitive areas where misunderstandings easily arise and provides some helpful answers.

Whilst the main booklet speaks for itself and can easily be given fairly casually to an Asian, there is a course available for people who may like to use the materials as an eight week course, presenting a relaxing opportunity for Asians to ask common questions and delve into what it means to be an Asian Christian.
