

How parents can help schools receiving their children

Gill Cheffy
Wycliffe Bible Translators
November 2016

Comparison of education systems

Compare skills, concepts and subject content

- are the children prepared for entry to the next academic year?
- are there any gaps?
- ask help from a teacher or tutor

Methodology

Some subjects may be taught differently

- how can a parent know ?
- can you prepare ahead ?
- alert the school

Language of education

Important to maintain the mother tongue

- how is that done without being a burden?
- preparing for re-entry to the UK system
- explaining to the school

Social Integration

Can be more challenging than academic integration

- awareness of academic background helpful to school and family
- helpful to children to know how school works in the UK
